The GT2 Timing Belt Holder/Clip is a simple and efficient solution for most 3D printer projects. It is designed to securely hold GT2 timing belts, which are commonly used in 3D printers and other CNC machines.

The model comes in two versions to accommodate both thin and thick GT2 belts, providing flexibility based on the specific requirements of your project. The part shown here is printed in PETG, that has high durability.

>> Please leave a like and make me happy... :) Thank you!

Print instructions

Layer height: 0.20mm

Infill: 25%

2 perimeters, 3 top and 2 bottom layers.

3mf file has settings and both models.
