Upgrade your **Ender 3** or **CR10** with the **Mantis Dual 5015 Toolhead**, designed for the **TZ E3 2.0 hotend** and enhanced cooling. This toolhead features dual 5015 blower fans and a 3010 fan, providing exceptional airflow and cooling performance for superior print quality.

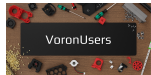

Key Features:

- **Fan Upgrades Required:** Replaces the existing hotend and part cooling fans with 2x 5015 blower fans and a 3010 fan for powerful and efficient cooling.
- **Parallel Blower Fans:** Two 24V blower fans wired in parallel for the Ender 3. More powerful fans allow for lower speeds depending on your print speed and material, offering flexibility for various projects.
- **Optimized Ducts:** Lengthened ducts to ensure 5015 blower fans clear the Ender 3 Pro carriage back plate.

- **Secure Mounting:** The duct mount features countersunk M3 nut sections for secure and stable mounting.
- **MK8 Compatibility:** Duct mount attaches to the hotend via mounting bolts, making it compatible with MK8 hotend mounting points.
- **BLTouch Mount:** Includes a custom BLTouch mount designed to fit the Ender 3 carriage behind the duct. BLTouch coordinates are x_offset: -40 y_offset: 1

Note: This design is open-source under the GPL v3.0 license, allowing for personal and commercial use.
